Abstract

This document describes the user interface for the ExplainTable module. It contains some simple examples and screenshots for the users to make using of this module easier.

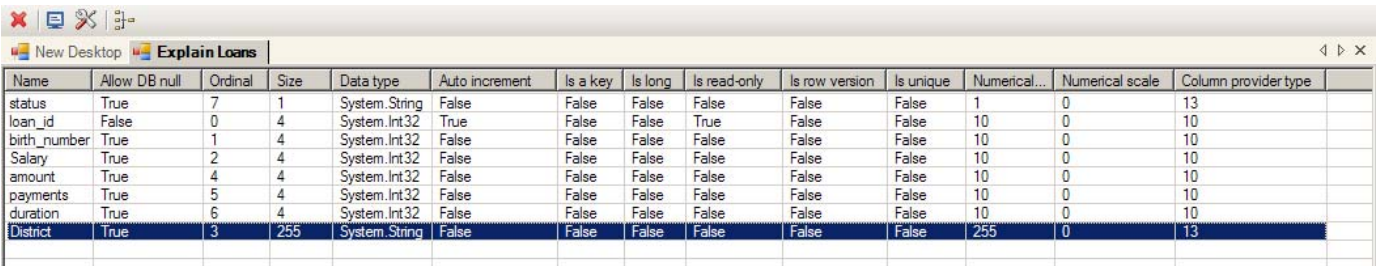

Introduction

Welcome to ExplainTable module. This is a module designed for displaying the results of SQL explain table query.

Parts of the user interface

Main window

Main dialog window contains a list of the datacolumns in the table. Columns of this list contain further information about the data columns.

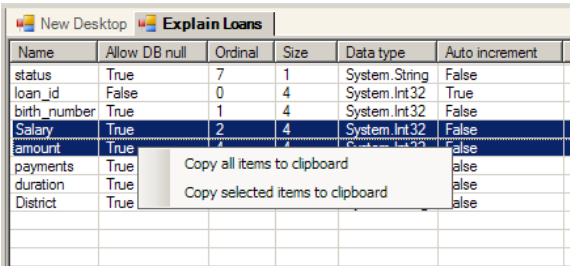

Name	Allow DB null	Ordinal	Size	Data type	Auto increment	Is a key	Is long	Is read-only	Is row version	Is unique	Numerical...	Numerical scale	Column provider type
status	True	7	1	System.String	False	False	False	False	False	False	1	0	13
loan_id	False	0	4	System.Int32	True	False	False	True	False	False	10	0	10
birth_number	True	1	4	System.Int32	False	False	False	False	False	False	10	0	10
Salary	True	2	4	System.Int32	False	False	False	False	False	False	10	0	10
amount	True	4	4	System.Int32	False	False	False	False	False	False	10	0	10
payments	True	5	4	System.Int32	False	False	False	False	False	False	10	0	10
duration	True	6	4	System.Int32	False	False	False	False	False	False	10	0	10
District	True	3	255	System.String	False	False	False	False	False	False	255	0	13

- **Columns.** Columns in the list view correspond with SQL explain table query columns. Please refer to SQL documentation for further details. Values in the list can be sorted by clicking on the column header, either in ascending or descending order.

Right-click menu

Right-click menu contains options to copy the information to clipboard.

Name	Allow DB null	Ordinal	Size	Data type	Auto increment
status	True	7	1	System.String	False
loan_id	False	0	4	System.Int32	True
birth_number	True	1	4	System.Int32	False
Salary	True	2	4	System.Int32	False
amount	True	4	4	System.Int32	False
payments	True	5	4	System.Int32	False
duration	True	6	4	System.Int32	False
District	True	3	255	System.String	False

Copy all items to clipboard

Copy selected items to clipboard

- **Copy all items to clipboard.** When this option is selected, all items from the ExplainTable list are copied to the clipboard as tab separated values.
- **Copy selected items to clipboard.** When this option is selected, the currently items from the ExplainTable list are copied to the clipboard as tab separated values.
